

PROGRAM DETAILS

-  Sustain Shawnee involves a co-mingle approach to recycling, which means sorting paper from plastic and various waste materials *is not* necessary.
-  Co-mingle containers are eight (8) cubic yards and emptied biweekly.
-  Cardboard-only containers are also available at a discounted rate. They are the same size as the co-mingle containers; emptied up to five times per week.

FOR EVERY TON OF PAPER RECYCLED...

-  30,000 tons of water are saved.
-  Enough energy is saved to power a three-bedroom house for one year.
-  17 mature trees, 3 cubic yards of landfill space and 2 barrels of oil are saved.

DID YOU KNOW?

-  Recycling an aluminum can saves enough energy to run a TV for 3 hours.
-  Annually, Americans throw away enough office and writing paper to build a wall 12 feet high, stretching from Los Angeles to New York.
-  More than 50% of a new, aluminum can is made from recycled aluminum.

IT IS TIME TO GO GREEN.

Please contact the Chamber office to learn more on how your business can go green today.

THE GREEN INITIATIVE

One hundred acres of the Earth's rain forests are being cut down
EVERY MINUTE.

There is not a better time than now to make a difference.

Introducing

A Shawnee Chamber of Commerce member-value program provided through the partnership with Deffenbaugh Industries.

The **green** opportunity is now available to Chamber members to commercially recycle at a discounted, monthly rate.

Do right for the economy. Go **green**.
